

KWPS ~ YELLOW PAGES 8TH FEBRUARY 2019

**Safer
Internet
Day**

Safer Internet Day

We have been talking about online safety in school this week. Yesterday we discussed the recent guidelines from medical officers about the `healthy` use of mobile devices including banning them from mealtimes and bedtimes. We will continue to focus on this in the coming weeks with your child.

Dodgeball Inter-school Tournament ~ Congratulations!

Congratulations to the 6 children from Y5 and 6 who represented our school in the recent Dodgeball Championship. They played really well throughout, demonstrating good sportsmanship too. Very Well done!

Postponed Synagogue Visit ~ Y4

The postponed Synagogue visit will take place this coming Monday 11th. Please can boys bring a hat with them.

Staffing Update ~ Congratulations Mr and Mrs Hankinson

On Wednesday we held a special assembly for Mrs Hankinson and shared some exciting news that she had told her class. We talked about a lovely video that she had shown them called 'A Mother for Choco' which told the story of a little chicken who was looking for a mummy and finally found a loving home with a mummy bear. Mrs Hankinson explained that she is going to be a mummy to 2 little boys who were looking for a mummy and that Mr Hankinson would be their daddy.

We wished Mrs Hankinson well and I am delighted to say that she has had a lovely first day and night with her new family.

Mrs Hankinson will remain on adoption leave until at least the end of the Summer Term and we will obviously all miss her very much. However, we are very fortunate that, in conjunction with Lancashire, we have been able to source a very experienced teacher, Mrs Atkinson to teach Y2 in her absence. Mrs Atkinson will also be the Infant Key Stage Leader.

I am pleased to say that Ms Norris, the Y5 teacher, who has previously worked as a Deputy Headteacher, has agreed to become our Acting Deputy Head.

Maths Problem of the Week

Last week's answers:

1. I have one each of 1p, 2p, 5p and 10p.

I can make 11 different sums of money.

1. I have one each of 1p, 2p, 5p, 10p, 20p and 50p.

I can make 63 different sums of money.

Congratulations to every child who earned a house point by bringing in their solution.

This week`s problem is all about ice-creams and can be found on the back of this newsletter

Text Message ~ Apologies

I would like to apologise for any confusion that yesterday`s text message may have caused. On our computer screen it was going out as one message but unfortunately I believe it arrived as separate messages and in some cases in a muddled order. I am so sorry and do hope that it didn`t detract from what was a very heartfelt message about a very special colleague.

Ice Cream Maths

Amazing Fact

The ice cream cone was invented at the 1904 World's Fair in St. Louis. Previously, ice cream had only been eaten with bowls and spoons but the invention of the cone enabled people to eat ice cream on the move.

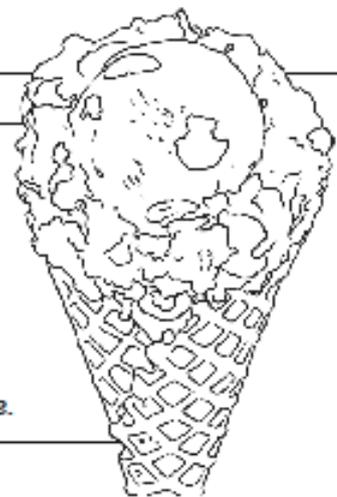

Challenge

Try this ice cream maths challenge.

The ice cream stall sells chocolate, peach, mint, lemon, strawberry and vanilla flavour.

What combinations can be created for a double cone?

Be sure to work systematically and record your solutions in an order. How will you know once you have found all the possibilities? Use the space below for your working out.

You could also try to find out:

- how the first ice cream cone was made;
- how big the biggest ever ice cream cone was;
- what the most popular flavour of ice cream is;
- what some of the strangest flavours that have been made are.
